

## Supplemental figure legends

Supplemental figure 1. Liver weight following 8mo treatment with vehicle or sulindac. Liver weight was significantly decreased in  $Pkd2^{WS25/-}$  mice treated with sulindac as compared to  $Pkd2^{WS25/-}$  mice fed control diet. (n=8 for every group,  $Pkd2^{WS25/-}$  vehicle vs. sulindac : \* $P<0.05$ ;  $Pkd2^{WS25/-}$  vehicle vs. control: \*\* $P<0.01$ )
